Re: Expansion of Clean Harbors Recycling Services

Dear Valued Customer:

I am pleased to announce Clean Harbors' acquisition of solvent recycling facilities in Chicago, Illinois and Hebron, Ohio from Safety-Kleen Systems, Inc. This acquisition broadens our service portfolio and establishes a substantial presence for Clean Harbors in the solvent recycling market.

By acquiring these two recycling facilities and constructing our own solvent recovery plant at our El Dorado, Arkansas location, we are now better positioned to offer our customers a broad spectrum of choices for addressing their solvent waste streams. We look forward to what the people and assets of the Chicago and Hebron facilities will bring to Clean Harbors and what we will be able to provide customers.

Our core services include the recycling of a variety of chemicals and solvents, which are available for sale. We also offer tolling where we will recycle and return your material to you for your reuse. If you have questions on our recycling services or chemical sales, please contact one of the following individuals.

Neil Manny, Manager, Recycling Services Sales
773.247.2828 or manny.neil@cleanharbors.com

Paul DeVeau, Manager, Recycling Services Sales
978.687.5063 or deveau.paul@cleanharbors.com

Our objective is to provide you with comprehensive environmental services that allow you to best manage your environmental program. Thank you for your business, and we would welcome the opportunity to manage your solvent recycling needs.

Yours truly,

A handwritten signature in black ink that reads "Alan S. McKim".
