- Year-over-year Results Reflect Effects of Currency Translation and Adverse Weather
- Concludes Quarter with Strong March Performance and Sales Momentum
- Cost Reduction Efforts Proceeding On Plan
- Company Confirms 2014 Revenue and Adjusted EBITDA Guidance

Norwell, Mass. – May 7, 2014 – Clean Harbors, Inc. ("Clean Harbors") (NYSE: CLH), the leading provider of environmental, energy and industrial services throughout North America, today announced financial results for the first quarter ended March 31, 2014.

Revenues for the first quarter were \$846.7 million compared with \$862.2 million in the same period in 2013. Income from operations in the first quarter of 2014 was \$29.9 million compared with \$34.8 million in the same period of 2013.

First-quarter 2014 net income was \$9.0 million, or \$0.15 per diluted share, compared with \$10.5 million, or \$0.17 per diluted share, in the first quarter of 2013. First-quarter 2014 net income was reduced by \$4.7 million of pre-tax integration and severance costs. First-quarter 2013 net income included pre-tax adjustments related to acquisition accounting of \$13.6 million, as well as approximately \$5.7 million in integration and severance costs.

Adjusted EBITDA (see description below) in the first quarter of 2014 was \$102.0 million compared with \$111.2 million in the same period of 2013.

Comments on the First Quarter

"We ended the first quarter with a strong finish, exceeding our revenue guidance and reporting Adjusted EBITDA in line with our expectations," said Alan S. McKim, Chairman and Chief Executive Officer. "Adverse weather affected our business in the first two months of the quarter, but conditions began to normalize and we achieved improved results in many of our lines of business. Within our segments, we saw Technical Services deliver another solid quarter, achieving year-over-year growth as incineration utilization reached 91% and landfill volumes grew 25% on increased project work."

"In our Industrial and Field Services segment, strength in our core Industrial business was offset by the negative translation impact of our Canadian operations into U.S. dollars," McKim said. "The performance of our SK Environmental Services segment reflected the unfavorable weather, which caused abnormally high office closures, slowed customer demand and increased heating/maintenance costs. Our Oil Re-refining and

Clean Harbors Reports First-Quarter 2014 Financial Results

Recycling segment rebounded from year-end and demonstrated improvement as the quarter progressed, including some pricing gains in March after a significant decline in base oil pricing in January. Our Oil and Gas Field Services segment performed as expected in the quarter despite softness in our seismic business and the unfavorable currency translation effect."

"In conjunction with our fourth-quarter news release, we announced a number of initiatives aimed at lowering our cost structure and improving our returns," McKim said. "Beyond the synergies that we already achieved through Safety-Kleen in 2013, we set a target of eliminating an additional \$75 million in companywide expenses. Many of these programs are underway, and we remain on course to attain our full-year goal. We also launched a series of margin improvement initiatives, such as actions related to our pay-for-oil (PFO) program. During the first quarter, we lowered PFO costs by three cents per gallon from the fourth quarter and are encouraged by the efforts of that entire team."

"We are focused on increasing our returns and recognizing the value presented by our own shares. As a result, we launched the first stock buyback program in our Company's history late in the first quarter. The Board authorized a \$150 million program that we intend to pursue going forward," McKim said.

Business Outlook and Financial Guidance

"Looking ahead, we are optimistic about our prospects for 2014, and we believe the steps we are taking to address the challenges in our markets have set the Company on the path to recovery. We are encouraged by some of the overall trends we are seeing in our businesses ranging from increasing volumes in our disposal network to improved base oil pricing and lower PFO in re-refining to the opening of new Safety-Kleen branches to opportunities in our core Industrial business lines. Strength in a number of our key verticals such as Chemical, Manufacturing and Automotive also will support continuing improvement in our performance as the year progresses. We have initiated two major operational changes that will drive organic growth and business development: reconfiguring the sales organization for a greater emphasis on cross selling, and forming a new supply chain organization to enhance strategic sourcing and logistics. Overall, we are confident that the combination of our cost-reduction programs, margin enhancement activity and organic growth initiatives will deliver increased value to our shareholders," McKim concluded.

Based on its first-quarter financial performance and current market conditions, Clean Harbors is reiterating its previously announced 2014 annual revenue and Adjusted EBITDA guidance. The Company continues to expect 2014 revenues in the range of \$3.5 billion to \$3.6 billion and Adjusted EBITDA in the range of \$525 million to \$555 million. A reconciliation of the Company's Adjusted EBITDA guidance to net income guidance is included below.

Clean Harbors Reports First-Quarter 2014 Financial Results

For the second quarter of 2014, the Company expects revenue in the range of \$860 million to \$880 million. The Company expects to generate Adjusted EBITDA for the second quarter of 2014 in the range of \$130 million to \$135 million. A reconciliation of the Company's Adjusted EBITDA guidance to net income guidance is included below.

Non-GAAP Results

Clean Harbors reports Adjusted EBITDA results, which is a non-GAAP financial measure, as a complement to results provided in accordance with accounting principles generally accepted in the United States (GAAP). The Company believes that Adjusted EBITDA provides additional useful information to investors since the Company's loan covenants are based upon levels of Adjusted EBITDA achieved. The Company defines Adjusted EBITDA in accordance with its existing credit agreement, as described in the following reconciliation showing the differences between reported net income and Adjusted EBITDA for the first quarter of 2014 and 2013 (in thousands):

Non-GAAP Segment Results

Clean Harbors reports Adjusted EBITDA results, which is a non-GAAP financial measure, as a complement to results provided in accordance with accounting principles generally accepted in the United States (GAAP) and believes that such information provides additional useful information to investors since the Company's loan covenants are based upon levels of Adjusted EBITDA achieved. The Company defines Adjusted EBITDA in accordance with its existing credit agreement. See "Non-GAAP Results" above for a reconciliation of the Company's total Adjusted EBITDA to GAAP net income.

⁽¹⁾ Corporate Items revenue for the three months ended March 31, 2013 includes one-time, non-cash reductions of approximately \$10.2 million due to the impact of fair value acquisition accounting adjustments on Safety-Kleen's historical deferred revenue at December 28, 2012. Revenue for the five reportable segments for the three months ended March 31, 2013 excludes such adjustments to maintain comparability with future operating results and reflect how the Company manages the business.
