Forward Looking Statements and GAAP Disclaimer

These slides contain (and the accompanying oral discussion will contain) forward-looking statements, which are generally identifiable by use of the words "believes," "expects," "intends," "anticipates," "plans to," "seeks," "should," "estimates," "projects," "may," "likely" or similar expressions. Such statements may include, but are not limited to, statements about future financial and operating results, the Company's plans, objectives, expectations and intentions and other statements that are not historical facts. Forward-looking statements are neither historical facts nor assurances of future performance. Such statements are based upon the beliefs and expectations of Clean Harbors' management as of this date only and are subject to certain risks and uncertainties that could cause actual results to differ materially, including, without limitation, those items identified as "Risk Factors," disclosed in our periodic filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K filed on February 23, 2022. Therefore, readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's opinions only as of the date hereof. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Clean Harbors undertakes no obligation to revise or publicly release the results of any revision to these forward-looking statements other than through its filings with the SEC, which may be viewed in the "Investors" section of the Clean Harbors website.

Statement Regarding use of Non-GAAP Measures:

Adjusted EBITDA, adjusted free cash flow, adjusted net income and adjusted earnings per share, as presented in these slides, are non-GAAP financial measures and should not be considered alternatives to other measurements under generally accepted accounting principles (GAAP), but viewed only as a supplement to those measurements. These non-GAAP measures are not calculated identically by all companies. Therefore, our measurements of Adjusted EBITDA, adjusted free cash flow, adjusted net income (loss) and adjusted earnings (loss) per share are clearly defined and may not be comparable to similarly titled measures reported by other companies. We believe that Adjusted EBITDA provides additional useful information to investors since our loan covenants are based upon levels of Adjusted EBITDA achieved and the fact that management routinely evaluates the performance of its businesses based upon levels of Adjusted EBITDA. We believe adjusted free cash flow provides useful information to investors about our ability to generate cash. We believe adjusted net income (loss) and adjusted earnings (loss) per share provide useful information about our performance excluding non-recurring or extraordinary items.

Adjusted EBITDA consists of net income (loss) plus accretion of environmental liabilities, stock-based compensation, depreciation and amortization, net interest expense, loss on early extinguishment of debt, provision for income taxes and excludes other gains, losses and non-cash charges not deemed representative of fundamental segment results and other (income) expense, net. Adjusted free cash flow consists of net cash from operating activities excluding cash impacts of items derived from non-operating activities, such as taxes paid in connection with divestitures, less additions to property, plant and equipment plus proceeds from sale of fixed assets. All amounts in USD unless otherwise noted.

For a reconciliation of Adjusted EBITDA and adjusted net income to net income, a reconciliation of adjusted earnings per share to net income per share and a reconciliation of net cash from operating activities to adjusted free cash flow, please refer to our quarterly news release dated May 4, 2022 on our website and other periodic filings with the SEC.

- Rebranding initiative targeting July 1st →

Capital Allocation Strategy – Driven by ROIC

- Invest capex to drive organic growth
- Evaluate acquisition and divestiture opportunities
- Execute authorized buyback plan
- Assess current debt structure and leverage

FINANCIAL OVERVIEW

Summary of Q1 Results

- Revenue of \$1.17B – ahead of expectations; Up 45% YoY reflecting the addition of HPC and strong organic growth
- GAAP and Adjusted EPS* of \$0.83
- Adjusted EBITDA* increased 39% to \$180.3M; Adjusted EBITDA margin of 15.4%
- Adjusted free cash flow* was (\$107.6) million compared with \$62.3 million in Q1'21 due to increased capex, higher incentive comp, working capital needs and timing of certain items
- Environmental Services segment benefited from continued strong demand for disposal and upward trend across all service businesses; margin decline reflects non-recurring benefits in Q1' 21 partially offset by pricing and cost measures
- Safety-Kleen Sustainability Solutions segment delivered substantial increase in profitability due to pricing environment, supported by effective spread management
- Corporate segment up YoY, due to HPC costs, wage increases and higher healthcare costs
